Short Description (Bullet Points)

- 8000 lb lift at 2' Per Minute
- All Aluminum Construction
- Completely Ready to Install
- Powered by Belt-free A-Drive
- Aluminum No Weld Cradles
- Aluminum Rubber Top Bunks

Description

The Coastal Series Boat House Lift powered by the BH-USA A-Drives are designed to be mounted onto your boat house structure. The Coastal Series 8K All Aluminum Boat House Lift Kit Center Mount w/ Cradles comes standard with the BH-USA A-drive sealed aluminum gearbox providing the quietest and fastest performance available. Fully adjustable design allows for top beams and lifter beams to be field cut for the perfect size and custom fit. All marine grade aluminum and stainless steel construction with extruded, no weld slide-on pulleys and dead-man brackets. The Coastal series is the safest lift with a no weld cradle.

Elite Motors stainless steel motors power the overhead lift. The motors are UL Listed. The elite stainless steel motors are the strongest stainless steel motors available for an overhead boat

lifts. The aluminum cable winders helps extend the cable life. All moving parts feature grease fittings. The Coastal series overhead lift comes standard with aluminum bunks and guide post bumpers! The lift has two options a weld free cradle or with boat slings.

BH-USA has over 38 years experience in the boat lift industry. The Coastal Series overhead boat lift comes crated in a single crate (no loose pieces) and comes complete, ready to install. Boat House builders and DIYers love the simplicity and strength of the BH-USA overhead boat lift. Manufactured by BH-USA at our Longview, Texas, factory.

Specifications

Lift Rating	8000 lbs.

Cable Configuration	2 Part
Cradle Beam	6" x 4" @ 4.7# Per 6061-T6 Aluminum 12' 6"
Fasteners	Stainless Steel
A-Drive	7,000 lb. Rated
Gear Type	Double Worm 40:90
Motor	1.5 HP Stainless Steel
Voltage	240 V
Bunks	12' x 10" High Aluminum
Guide Post Bumpers	Black
Guide Post Height	60"
Drum Switch	Lock On
GFCI Protected	Yes
Cable Winders	Yes
Lift Speed	Approx. 2"/Min (Tested: 24" in 62 Seconds)
Shipping Container	13 1/2" x 2' x 2' Wood Crate
Shipping Weight	60"
Motor Brand	Elite

BH-USA aluminum lifts are individually crated and can only be shipped via motor freight. Product shipped motor freight is the purchasers responsibility to arrange for a delivery address that is accessible and has a fork truck available. If a Fork Truck is not available you can arrange to hand un-load the crate . BH-USA will request a call from the freight company to the purchaser to help facilitate this arrangement. Missed deliveries can incur extra freight charges that will be the purchaser's responsibility.

Lift Speed	Approx. 2"/Min (Tested: 24" in 62 Seconds)
Shipping Container	13 1/2" x 2' x 2' Wood Crate
Shipping Weight	60"
Motor Brand	Elite

BH-USA aluminum lifts are individually crated and can only be shipped via motor freight. Product shipped motor freight is the purchasers responsibility to arrange for a delivery address that is accessible and has a fork truck available. If a Fork Truck is not available you can arrange to hand un-load the crate . BH-USA will request a call from the freight company to the purchaser to help facilitate this arrangement. Missed deliveries can incur extra freight charges that will be the purchaser's responsibility.
